

Senior Netsuite Developer

Company: Trend Nation, LLC www.TrendNation.com

Location: Las Vegas, NV

Company Overview: Trend Nation is a fast-growing e-commerce retailer that owns and operates a few niche e-commerce websites and excels on marketplace platforms including Amazon and Walmart. Over the past decade the company has been recognized as one of the top Amazon & Walmart private label marketplace partners. Our passion is bringing fun and functional products to life and delighting our customers with great value. With over 2,000 products and over 5 million delighted customers, Trend Nation is a fun, fast-paced work environment that recognizes its employees with monthly teambuilding activities, regular company-wide celebrations, and a comprehensive benefits package.

Position Overview

- Manage customizations end-to-end, including scoping, requirement gathering, solution architecture, development, testing, and deployment.
- Write, optimize, and maintain NetSuite SuiteScript code with a clear understanding of the business impact of your changes on our internal and external teams.
- Collaborate with key stakeholders to address business needs throughout the organization.
- Build new projects in Netsuite to support business operations.
- Work with 3rd party connector providers to manage integrations into Netsuite.
- Knowledge of a broad range of technology solutions and deep understanding of integration best practices.
- Strong functional competence in software development.
- Strong understanding of general business operating principles.
- Proven ability to communicate clearly to both technical and non-technical audiences.
- Excellent project management skills.
- Manage access to NetSuite, as well as user permissions and roles.
- Train new hires, as needed, and act as our NetSuite “help desk” person.
- Build saved searches, scheduled emails, and reports for cross-functional teams.
- Document and adhere to standards to ensure high-quality work across all projects.
- Debug and troubleshoot issues across all layers of our order management systems.
- Work 40+ hours per week.
- Live Trend Nation’s core values.
- Test products, including wearable items, and provide feedback to any department requesting it.

Preferred Qualifications:

- 3+ Years of Netsuite scripting experience (SuiteScript 1.0 / 2.0), workflows, and general Netsuite best practices.
- 1+ Years in lead or project management experience.
- Other technical experience outside of Netsuite in other programming languages - .NET, Java, PHP, Javascript.
- Familiar with Source Control best practices, specifically GIT.
- Experience with integration frameworks and integration projects.
- Experience with e-commerce software is a plus, but not a requirement.
- Strong written and verbal communication skills.
- Strong computer skills (Must be proficient with MS Excel, Word, Google Mail).
- Detail-Orientated.
- Ability to multitask.
- Attention to detail and accuracy; prioritize tasks to meet multiple and changing deadlines.
- Must be able to pass a background check.

Compensation:

- BOE
- 401k, bonus program, medical and dental insurance reimbursement and many more benefits
