Junior Software Developer

Company: Trend Nation, LLC   www.TrendNation.com
Location: Las Vegas, NV

Company Overview: Trend Nation is a fast-growing company that owns and operates 3 niche e-commerce websites and excels on marketplace platforms including Amazon.com. With over 3,000 products and thousands of customers worldwide, Trend Nation is a fun, fast-paced work environment that recognizes its employees with monthly teambuilding activities, regular company-wide celebrations, and a comprehensive benefits package.

Position Overview

- Knowledge of a broad range of technology solutions and deep understanding of integration best practices.
- Strong functional competence in software development.
- Build tools to help optimize and improve business processes.
- Modify software to fix errors, adapt it to new hardware, improve its performance, or upgrade interfaces.
- Perform system testing and validation procedures.
- Complete software programming projects with accurate documentation.
- Work with customers or departments on technical issues, including software system design and maintenance.
- Prepare reports on programming project specifications, activities, or status.
- Conferring with key stake holders to obtain information on limitations or capabilities.
- Proven ability to communicate clearly to both technical and non-technical audiences.
- Provide basic desktop and network support to the team as needed.
- Triage and troubleshoot help desk tickets to resolve issues for users.
- Assist with computer and printer setup on a limited basis.
- Live Trend Nation's core values.
- Test products, including wearable items, and provide feedback to any department requesting it.

Preferred Qualifications:

- 2+ years of software engineering experience in .NET, Java, PHP, Javascript, or Python
- 1+ Years of experience with SQL, preferably Postgresql
- Experience in range of programming languages including Java, Javascript, and python
- Familiar with Testing best practices
- Familiar with Source Control best practices, specifically GIT
- High level understanding of Web Services and API's
- Experience with e-commerce software is a plus, but not a requirement

Compensation:

- BOE
- 401k, bonus program, medical and dental insurance reimbursement and many more benefits
